THE URBAN KAZA OPPORTUNITY

Project: Urban Kaza
Developer: Hillbottom Properties
Strategic Coordinate: Kazanchis, Addis Ababa

LIVING, ACTIVATED.

URBN
KAZA

LIVING, ACTIVATED.

THE VISION

More Than a Residence.
A Frequency Shift.

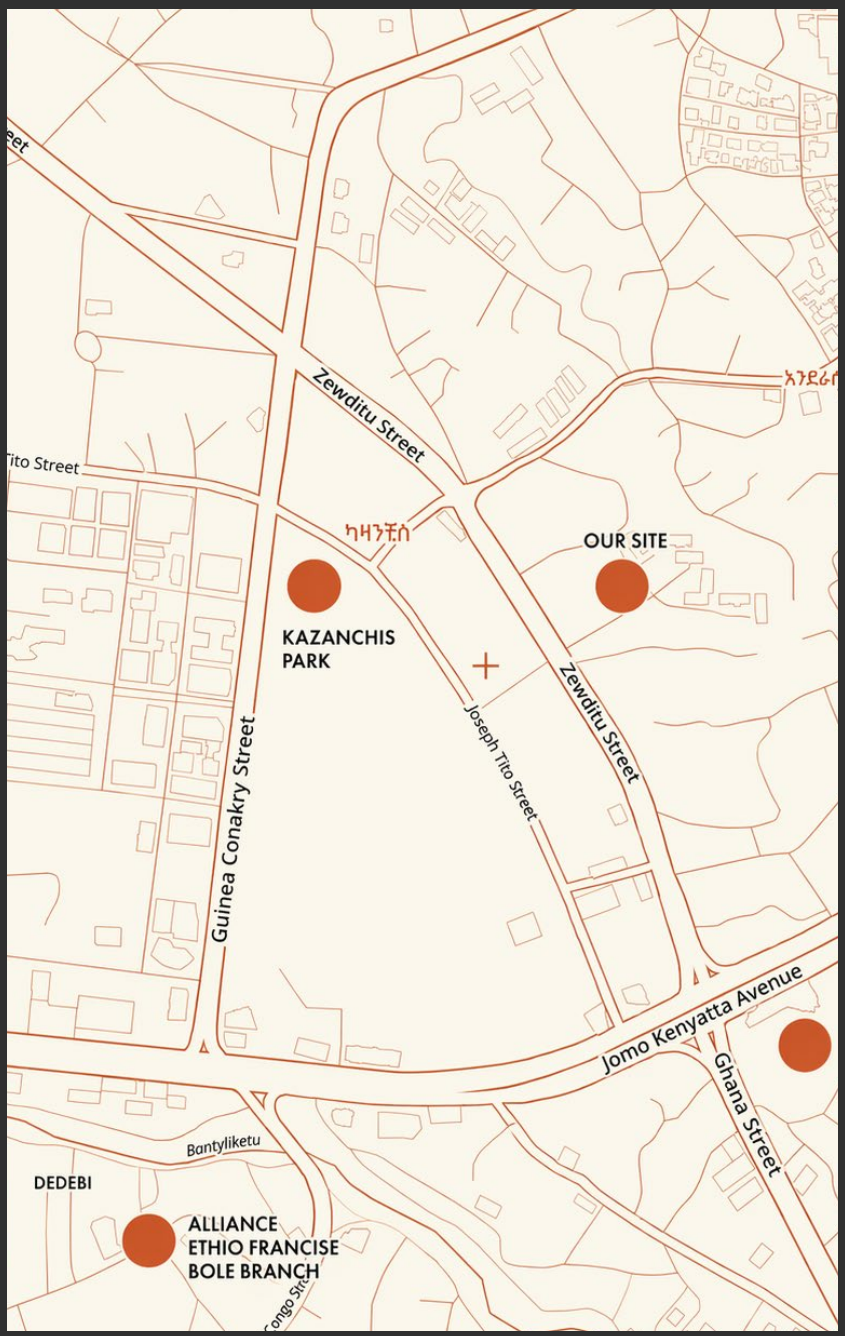

Urban Kaza is not merely an addition to the Addis Ababa skyline; it is a new standard for urban living. We have created a "lifestyle ecosystem" designed for the Enterprising Spirit—the visionaries, the leaders, and the legacy-builders.

By fusing Ethiopian soul with cosmopolitan sharpness, we have developed Ethiopolitan Living: an environment that moves the resident from "autopilot" to "fully alive." Whether as a corporate asset for executive housing or a private sanctuary for a family legacy, Urban Kaza offers a position of prestige, precision, and peace.

THE STRATEGIC COORDINATE

The Power of the Diplomatic Corridor.

In real estate, the most valuable asset is a strategic position. Urban Kaza is located within a 1KM radius of the UNECA headquarters, placing it in the most stable and prestigious corridor of the city.

THE VALUE FOR **THE CORPORATE CLIENT**

Executive Efficiency

Minimize transit friction for leadership. "Walkable Wealth" means embassies, Grade-A offices, and international hotels are mere steps away.

Institutional Security

Situated in the city's most guarded zone, ensuring the safety and privacy of high-profile residents.

THE VALUE FOR **THE INDIVIDUAL CLIENT**

A Signal of Status

An address in the diplomatic zone is a social and professional signal of success.

Enduring Value

This coordinate is the most resilient against market volatility, ensuring your home remains a high-value asset for generations.

THE ARCHITECTURE OF EXCLUSIVITY

16 FLOORS. 98 UNITS. ZERO NOISE.

01 The Foundation (B5–B1)

Five levels of secure underground parking. Your vehicle rests while you rise.

02 The Handshake (Ground Floor)

Our Afro-centric lobby. Warm geometry meets warm coffee. A space designed to adjust your posture the moment you step inside.

03 The Sanctuary (Floors 2–15)

A pure residential core. 16 floors of architectural discipline. With only 7 units per floor, we have ensured an atmosphere of intimacy and exclusivity.

04 The Summit (The Rooftop)

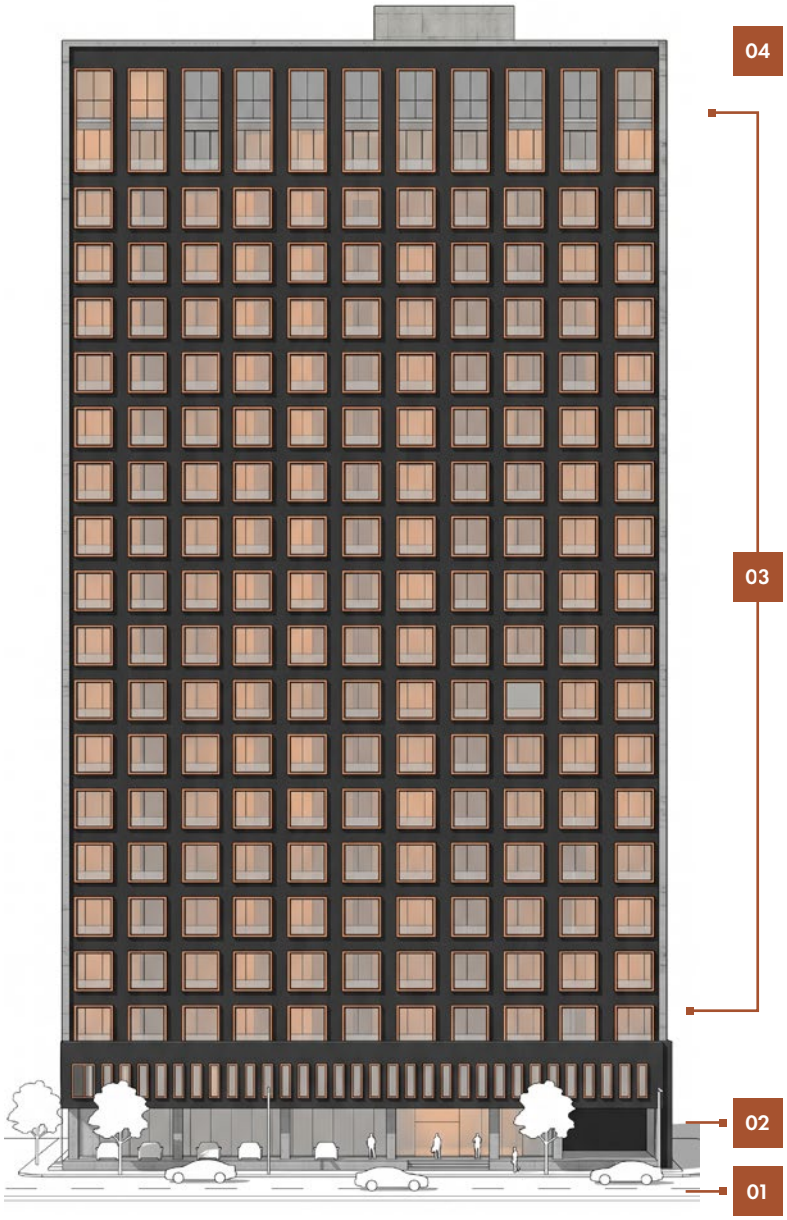

Where Addis meets the sky.

The Gym: Relocated to the top floor. Sharpen the body while expanding your view.

Roof Top Bar & Restaurant: Mediterranean-inspired Restaurant, Cocktail Bar and panoramic views.

Urban Kaza is engineered to protect the quality of the environment. To ensure a cohesive, high-net-worth community, we have implemented a disciplined unit mix:

- **Pure Residential:** We have intentionally removed studios and connected rooms. This eliminates the "transient" feel of hotel-style apartments, ensuring a permanent, quiet, and exclusive neighborhood.
- **Intimate Density:** With only 7 units per floor, we prioritize privacy over volume.
- **The Summit Experience:** The building's gravitational center is the rooftop, featuring a premium Gym to sharpen the body and the Sora Sky Bar—a space of Mediterranean-inspired social currency.

THE "READY TO FIT" **PHILOSOPHY**

Structural Excellence. Personal Expression.

Urban Kaza is delivered as a Ready to Fit (RTF) product. We provide the institutional-grade shell—featuring signature fairfaced concrete and high-performance SPC flooring—allowing the owner to curate the interior to their specific taste.

- **For the Corporate Entity:** The ability to align the interior finishes with corporate branding or specific executive requirements.
- **For the Individual:** The freedom to transform a professional industrial canvas into a personal sanctuary.

By removing superficial gypsum and generic finishes, we provide a cleaner, more sustainable, and more honest architectural space.

THE HILLBOTTOM GUARANTEE

Execution Over Renders.

The value of any property is only as good as its delivery. Urban Kaza is developed by Hillbottom Properties, a developer defined by transparency, velocity, and structural integrity.

Institutional-Grade Infrastructure:

- **Autonomy:** Full-capacity backup generators and KONE high-speed elevators ensure the building functions regardless of municipal interruptions.
- **Management:** A commitment to professional maintenance that eliminates "post-handover decay," safeguarding the asset's valuation over the long term.

THE ACQUISITION **RATIONALE**

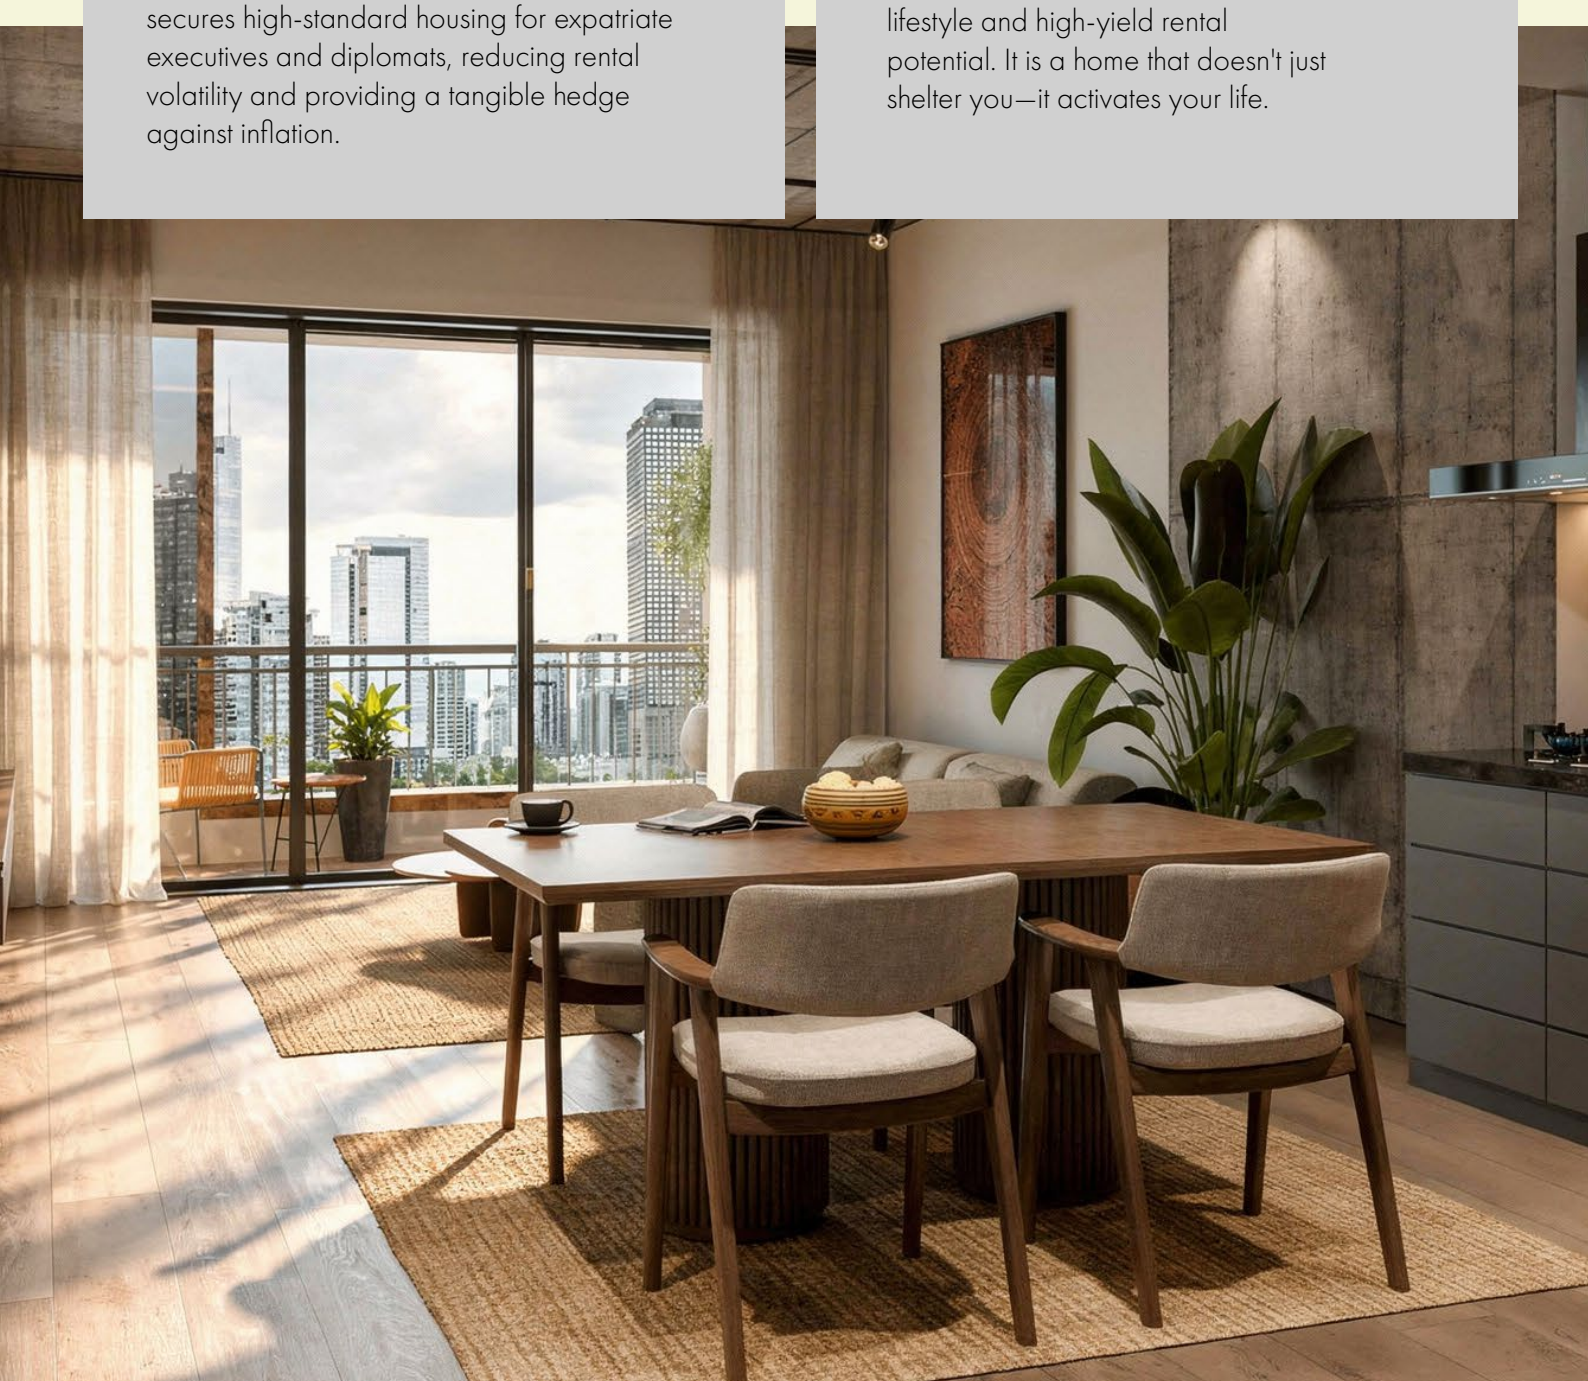

Why Secure a Position in Urban Kaza Now?

FOR THE CORPORATE/ INSTITUTIONAL INVESTOR

Urban Kaza serves as a strategic vehicle for capital preservation. Acquiring units here secures high-standard housing for expatriate executives and diplomats, reducing rental volatility and providing a tangible hedge against inflation.

FOR THE INDIVIDUAL/ DIASPORA INVESTOR

Urban Kaza is a legacy asset. It offers a rare combination of an elite lifestyle and high-yield rental potential. It is a home that doesn't just shelter you—it activates your life.

NEXT STEPS

The Corridor is Limited.

With only 98 units available, the opportunity to secure a position in Urban Kaza is reserved for the decisive. We invite you to:

1. **Review the Unit Mix:** Select your preferred floor and layout.
2. **Experience the Site:** Walk through the "Warm Geometry" of the build.
3. **Formalize Interest:** Secure your unit via a Letter of Intent (LOI).
